521 WE Heraeus-Seminar

Supported by Wilhelm und Else Heraeus Foundation

Dr. Ernst Dreisigacker

Elisabeth Nowotka
General Organisation

Dr. Kerstin Borras
Dr. Klaus Mönig
Prof. Georg Weiglein
Scientific Organisation

Aim of the Seminar

Review the results achieved by the LHC data and put them into perspective within the field of particle physics.

Bring together world-renowned experts to discuss the physics messages and the possible paths in future on the experimental, theoretical and instrumental side.

Special emphasis: open up the possibility for young scientists to get involved with the most recent developments and get in touch with our experts.

Very distinguished speakers will give the lectures with time afterwards for interactions.

Special Sessions with posters from the participants: prizes will be given to the three best posters → please vote !

Special Arrangements

The full-board lodging of your stay is fully sponsored by the Heraeus Foundation.

Drinks:

- Please fill the cold drinks taken from the fridge in a list beside the fridge.
- Please pay these drinks at the end of your stay.
- All drinks during the Heraeus evening tonight are free.

Meals:

- Lunch is served → please always be in time, since we cannot start before all arrived.
- Breakfast and dinner are buffet-style, free self-service during the given time period
- Breakfast and lunch are upstairs, dinners in the cellar
- Tonight: special Heraeus Dinner → thanks a lot to Heraeus !

Welcome
Have Fun 😊
