

Top physics activities in DESY group

in close collaboration with Hamburg University

(summarized by A. Geiser)

■ physics:

- ttbar cross section, t mass, ttbar spin correlations, MC generator studies
- single lepton and dilepton (+jets) final states

■ PhD students:

Dirk Dammann, Alexander Flossdorf, Benedikt Hegner, Christoph Rosemann, Ringo Schmidt

■ Diplom students:

Markus Marienfeld (+ soon one more)

■ Postdocs:

Dmitro Volyanskyy

■ Supervisors:

Joachim Mnich, A. Ge.

■ Weekly informal meeting

of HH/DESY top working group on monday afternoon,
chaired by Roger Wolf (Uni HH)
