

Status of Glidein WMS for dCMS

Max Fischer, Oliver Oberst, Günter Quast, Marian Zvada

INSTITUT FÜR EXPERIMENTELLE KERNPHYSIK (EKP) · FAKULTÄT FÜR PHYSIK

Current status

- Access to all dCMS grid sites
- Stable dGWMS core service
- Focus on User access and compatibility

Experience so far

- Very low entry barrier with job managers
- Fully functional for regular use cases
- Good job performance

- Centralized service debugging capabilities
- Small system response overhead

Open issues

- Pilots identified as regular user by sites
- Access per pool limited to institute user database
