

International Symposium on Multiparticle Dynamics 2008

Friday, 19 September 2008

Recent theoretical developments - Sem 4a/b (19:30 - 21:30)

time	[id] title	presenter
19:30	[106] Monte Carlo and large angle gluon radiation	MARCHESINI, G.
19:55	[107] Multi-particle scattering amplitudes in N=4 SUSY and integrability	LIPATOV, L.
20:20	[111] High energy scattering in QCD vs tiny black holes	SABIO-VERA, A.
20:40	[116] Saturation and Confinement: Analyticity, Unitarity and AdS/CFT Correspondence	TAN, C-I
