

# International Symposium on Multiparticle Dynamics 2008

## Friday 19 September 2008

### Strategies and analysis methods (A. Geiser) - Auditorium (15:15 - 16:35)

time	[id] title	presenter
15:15	[76] Bose-Einstein study of position-momentum correlations of charged pions in hadronic Z0 decays	CIOCCA, C.
15:35	[77] Squeezed correlations among particle-antiparticle pairs	PADULA, S.
15:55	[78] Correlations and fluctuations in PHENIX	HOMMA, K.
16:15	[79] Baryon production prediction pp and PbPb collisions at LHC with the Monte Carlo DPMJET-III	BOPP, F.
