

# International Symposium on Multiparticle Dynamics 2008

## Tuesday, 16 September 2008

### Recent Developments III (chair: K. Borras) - Sem 4a/b (19:30 - 22:00)

time	[id] title	presenter
19:30	[101] Saturation in lepton- and hadron induced reactions	JENKOVSKY, L.
19:50	[43] Multi-parton interactions and underlying events from Tevatron to LHC	BARTALINI, P.
20:10	[103] Multiplicities and Underlying Event	KAR, D.
20:30	[112] Saturation effects in final states due to CCFM with absorptive boundary	KUTAK, K.
20:50	[104] Photoproduction total cross-sections at very high energies	SRIVASTAVA, Y.
