

International Symposium on Multiparticle Dynamics 2008

Tuesday 16 September 2008

Recent Developments II (chair: N. Schmitz) - Sem 5 (19:30 - 22:00)

time	[id] title	presenter
19:30	[97] Extremely high multiplicity studies in the SVD-2 experiment	KOKOULINA, E.
19:50	[98] Quantum and classical entanglement of quark color states (cancelled)	KUSVSHINOV, V.
20:10	[99] Soft photon production in matter in two particle green's function consideration	KOSHELKIN, A.
20:30	[94] New scaling behaviour of low pT hadron production in proton-(anti)proton collisions at RHIC & Tevatron	TOKAREV, M.
20:50	[102] QGSM picture of strong interaction of stable particles from new physics	PISKUNOVA, O.
