

# International Symposium on Multiparticle Dynamics 2008

## Friday 19 September 2008

### Interpolation region (chair: M. Grothe) - Auditorium (17:05 - 18:30)

time	[id] title	presenter
17:05	[80] pT correlations versus relative azimuth of D-Dbar pairs as a sensitive probe for thermalization	TSILEDAKIS, G.
17:25	[81] Charmed particles as probes of high density medium (cancelled)	LINNYK, O.
17:45	[82] Hard diffraction at the LHC	DE ROECK, A.
18:05	[83] Exclusive photoproduction of dileptons at high energies	MACHADO, M.
