

Pentair / Schroff MTCA.4 products

Wednesday 11 December 2013 12:00 (8 minutes)

Pentair/Schroff is one of the companies actively contributing in the development of the PICMG MTCA.4 Standard. Since the last MTCA.4 workshop at DESY in December 2012, Pentair/Schroff has upgraded its MTCA.4 product portfolio.

The presentation shows the range of Schroff products which comply with MTCA.4:

- 12 Slot MTCA.4 chassis with redundant Cooling Units in a push-pull configuration.
- 12 Slot MTCA.4 for LLRF applications.
- 7-Slot MTCA.4 chassis for laboratory use.
- 5-Slot MTCA.4 chassis with 2U chassis height and horizontal AMC Module mounting.
- MTCA.4 accessories: Filler / Blocker /Slot Separation Modules.
