

# Linear Collider Forum 2013

## Friday 11 October 2013

### Accelerator Phenomenology and further ILC options - SR2 (09:00 - 10:30)

| time  | [id] title  | presenter           |
|-------|---|---------------------|
| 09:00 | [26] Babette Doebrich: Can we see quantum gravity at the gamma-gamma option?  | DOEBRICH, Babette   |
| 09:30 | [25] Tony Hartin: The calculation of e+e- collider processes embedded in the intense electromagnetic fields of both incoming charge bunches | Dr HARTIN, Anthony  |
| 10:00 | [24] Olufemi Adeyemi: Analytical model for calculation of target stress   | Mr ADEYEMI, Olufemi |
