DESY ATLAS Meeting
April 2nd 2008

DESY-ATLAS Wiki

- Idea or 'Why should we have one at DESY?'
 - easy to edit by *everyone* in the group
 - collection of tutorials and how-to's (which can be DESY specific)
 - » might save some colleagues some work/time
 - if skinnable eventually replace the static DESY ATLAS page
(so far not possible with current wiki)
 - keep project pages (more) up-to-date
(people who do the work can update the pages)
- Implementation and wanted Features
 - everyone with account and approval can create/edit pages
(hope is to mirror the DESY accounts, not possible with current wiki)
 - some admins can delete pages/caches
 - PlugIn's
 - skins/themes
(for the beauty)
 - Latex back end
 - can you think of more?

DESY-ATLAS Wiki

- Test wiki: <https://znwiki3.ifh.de/ATLAS/>
- Accounts
 - create an account yourself ('Login' top right) and drop me an email (sascha DOT mehlhase AT desy DOT de) with your UserName to become 'editor'

WorkBook

This page is supposed to offer a collection of tutorials, how-to's and links to interesting and educative pages, slides or whatever.

Contents

1. Mailing lists
2. Important links to the ATLAS Wiki at CERN
3. ATLAS code repositories
4. Shell setup (DESY)
5. Shell setup (CERN)
6. National Analysis Facility (NAF)
7. Monte Carlo Generators
8. Sandbox

Mailing lists

- [DESY-ATLAS general](#)
- [DESY-ATLAS Hamburg](#)
- [DESY-ATLAS Zeuthen](#)

Important links to the ATLAS Wiki at CERN

- [ATLAS Wiki Home](#)
- [ATLAS WorkBook](#)

ATLAS code repositories

- [ViewCVS ATLAS](#)
- [CVSweb ATLAS](#), [CVSweb ATLAS DESY Zeuthen](#)
- [LXR ATLAS](#)

Shell setup (DESY)

- [Setting up DQ2](#)
- [Setting up Athena](#)

Shell setup (CERN)

- [Setting up DQ2](#)

National Analysis Facility (NAF)

- [Introduction](#)
- [Setup](#)

Monte Carlo Generators

- [MC@NLO](#)
 - [Installation and Running HowTo](#)

Sandbox

Some help on editing pages can be found in the [SandBox](#).

ATLAS code repositories

- [ViewCVS ATLAS](#)
- [CVSweb ATLAS](#), [CVSweb ATLAS DESY Zeuthen](#)
- [LXR ATLAS](#)

Shell setup (DESY)

- [Setting up DQ2](#)
- [Setting up Athena](#)

Shell setup (CERN)

- [Setting up DQ2](#)

National Analysis Facility (NAF)

- [Introduction](#)
- [Setup](#)

Monte Carlo Generators

- [MC@NLO](#)
 - [Installation and Running HowTo](#)
