

# Update of all Windows PCs

- Support from Computer Center for Windows XP running out end of this Year!
  - All XP Computers have to be taken from Network
    - No Option for us, no DB connection!
- New running system will be **Windows 7**
- Lab-Computers are too old -> Have to **be exchanged!**
  - **ZNPEPE87 (1H09), ZNSATYR16 (PA200), ZNSATYR64 (SUESS) – Discussed with Manfred!**
  - **ZNPEPE60 (Autocad/Serge)?**
  - **What is about Cascade Probe Station PC???**
    - **Software etc.**

# That mean

- **Old local data have to be saved** (*1 order Disk*)
  - *Need to know **What** is important!*
- **Windows 7 will be installed by Computer Center, Driver for USB to GPIB too.**
  - **(Old Cards are useless, no drivers!)**
  - **Manfred take care (Order and Installation),**
  - **Have to bring him one test example before!**
- **Labview and ODBC have to be installed by us** (*(Martin?), I guess 2-3 days for all 3 PCs*)
- **I hope that no change in my program code is necessary...**

# And the big Questions

- Computer Center will give us some time...

**BUT WE HAVE TO AGREE  
ABOUT A TIME WHERE THE  
EXCHANGE OF COMPUTER  
CAN BE DONE?**

**(NO MEASUREMENTS)**

- **IDEAS FOR IMPROVEMENTS?**
