

SATELLITE WORKSHOP AT DESY PHOTON SCIENCE USERS' MEETING 2014

The German Engineering Materials Science Centre (GEMS): Status and perspectives of the Helmholtz-Zentrum Geesthacht Outstation at DESY

DATE Thursday, 30 January 2014

VENUE Semimarraum 2, Geb 2a

13:30	Welcome and status of GEMS	A. Schreyer, M. Müller HZG
13:40	Solidification of Mg alloys	D. Tolnai HZG
14:00	Texture measurements of Mg alloys	S. Yi HZG
14:20	Microtomography of catalysts	G. Hofmann KIT
14:40	Nanochannel Formation in Cubosome Particles	B. Angelov Cz. Acad. Sci., Prague
15:00	Coffee Break	
15:30	Grain mapping: Status and first experiments	T. Fischer, U. Lienert HZG, DESY
15:55	Unwrapping differential x-ray phase-contrast images through phase estimation from multiple energy data	M. Epple TU München
16:15	Final Discussion
