

SATELLITE WORKSHOP AT DESY PHOTON SCIENCE USERS' MEETING 2014

The German Engineering Materials Science Centre (GEMS): Status and perspectives of the Helmholtz-Zentrum Geesthacht Outstation at DESY

DATE Thursday, 30 January 2014

VENUE to be announced

13:30	Status of GEMS	A. Schreyer, M. Müller HZG
13:45	Solidification of Mg alloys	D. Tolnai HZG
14:10	Microtomography of catalysts	G. Hofmann (tbc) KIT
14:35	Nanochannel Formation in Cubosome Particles	B. Angelov Cz. Acad. Sci., Prague
15.00	Coffee Break	
15:30	Grain mapping: Status and first experiments	T. Fischer, U. Lienert HZG, DESY
15:55	Unwrapping differential X-ray phase-contrast images through phase estimation from multiple energy data	M. Epple (tbc) TU München
16:20	Final Discussion
