

SATELLITE WORKSHOP AT DESY PHOTON SCIENCE USERS' MEETING 2014

Status and Perspectives of Small Angle X-ray Scattering at DESY

DATE Thursday, 30 January 2014
VENUE Institut für Laserphysik, Bldg. 69

15:00	Coffee Break	
15:30	Welcome	R. Gehrke DESY
15:40	Status of Petra III Beamline P03	S. V. Roth DESY
16:10	The Data Evaluation Software DPDAK	G. Benecke DESY
16:20	Impact of Nanoscale Confinement on Co-Extruded Polymer Nanocomposites	F.J. Balta-Calleja CSIC Madrid
16:40	Watching Aging in Organic Solar Cells with In-situ GISAXS	P. Müller-Buschbaum TU München
17:00	Discussion & Coffee Break	
17:30	Following Structural Changes in Nanoparticle Films with In-situ GISAXS Microfluidics	V. Körstgens TU München
17:50	Time-resolved Scanning WAXD Establishes Novel Structure-Property Relationships in Natural Rubber	K. Brüning IPF Dresden
18:10	Fat Migration in Lipid Based Multicomponent Materials	S. Reinke TUHH Hamburg
18:30	Investigation of the Piezoelectric Behaviour in Bones on a Micrometer Length Scale	F. Wieland HZG Geesthacht
