

QCD@LHC2014

Tuesday 26 August 2014

Heavy quarks - Conference hall (14:15 - 16:00)

-Conveners: Achim Geiser; Markus Schulze

time	[id] title	presenter
14:15	[28] Charm and beauty structure functions and heavy quark masses at HERA	GEISER, Achim
14:40	[60] Impact of LHCb heavy flavour forward data on PDFs, charm at HERA	Mr ZENAIEV, Oleksandr
15:10	[38] Production of top pair events with additional radiation using the ATLAS detector at the LHC	SAAVEDRA, Aldo
15:35	[73] Rare B decays	STAMOU, Emmanuel

Wednesday 27 August 2014

Heavy quarks - Conference hall (15:00 - 16:15)

-Conveners: Markus Schulze; Achim Geiser

time	[id] title	presenter
15:00	[75] Recent progresses in PowHel for hadroproduction processes involving top quarks.	Dr GARZELLI, Maria Vittoria
15:25	[67] Top quark pair properties - spin correlations, top quark pair asymmetry and complex final states using the ATLAS detector at the LHC	ZHU, Chengguang
15:50	[69] Top quark pair charge asymmetry using the ATLAS detector at the LHC	KHANOV, Alexander

Heavy quarks - Conference hall (16:45 - 18:15)

-Conveners: Markus Schulze; Achim Geiser

time	[id] title	presenter
16:45	[71] Top Quark Measurements in CMS + top mass	Mr BARTOSIK, Nazar
17:20	[72] Top quark mass determination from lepton b-jet invariant mass templates in an NLO analysis of $WWb\bar{b}$ production	WINTER, Jan
17:45	[70] Top quark pair production cross section using the ATLAS detector at the LHC, top mass	Dr KIMURA, Naoki
