

Session Program

17-21 Mar 2014

**Theorist of the Month: Howie Baer (U
Oklahoma)**

***Seminar: "Radiatively-driven natural
supersymmetry with implications for LHC,
ILC, wimp and axion searches"***

DESY Hamburg, SR1

Wednesday 19 March

11:00

13:00

Seminar: "Radiatively-driven natural supersymmetry with implications for LHC, ILC, wimp and axion searches"

Session | **Location:** DESY Hamburg, SR1
