

The Life after your Phd—think further!

- Panel discussion for MIN doctoral students in special ambience -

We are happy to welcome Dr. **Michael Wegmann**, Dr. **Maike Tonner** and Dr.-Ing. **Steffi Beckhaus**. Join the discussion, learn more about possible career perspectives and use the opportunity to ask intriguing questions.

When? 25th of May at 6pm
Where? CFEL, Seminarroom I, Foyer (Bahrenfeld, Building 99)

Catering provided

Dr. Michael Wegmann

Michael Wegmann works on the immuno-pathogenesis of allergic bronchial asthma. He founded a start-up company at the university of Marburg to establish new asthma therapeutics. He currently is head of a junior research group at Fz Borstel.

Maike Tonner is member of a company of Allianz based in Paris, where she is working as graduated mathematician on Actuarial Topics. Before joining Group Actuarial she has been working for the Research and Development department.

Dr. Maike Tonner

Dr.-Ing. Steffi Beckhaus

Steffi Beckhaus is a former prof. of UHH, working in virtual reality, human machine interaction, and workplace design. She successfully reoriented herself several times during her career and is now working as a consultant, scientific expert, and systemic coach.

ALL DOCTORAL STUDENTS AT THE MIN FACULTY ARE WELCOME.
