

3rd JOINT WORKSHOP ON HIGH PRESSURE, PLANETARY AND PLASMA PHYSICS (HP4)

24. - 26. September 2014

Rostock, Germany

<http://indico.desy.de/event/hp4>

Planets: Structure, evolution, geodynamics and magnetic fields

Warm dense matter: Equation of state and phase diagram

High pressure experiments using multi-anvil and diamond-anvil cells

**Dynamic and ultrafast processes in strongly excited matter
using high-power lasers and free-electron lasers**

Ab initio simulations for matter under extreme conditions

Organization Committee

Andreas Becker, University of Rostock
Ronald Redmer, University of Rostock
Frank Sohl, DLR Berlin
Frank W. Wagner, DLR Berlin

Hanns-Peter Liermann, DESY Hamburg
Gerd Steinle-Neumann, University of Bayreuth
Thomas Tschentscher, European XFEL Hamburg
