

Simulation of High Speed Interfaces with Ansys Software

Thursday, December 11, 2014 2:30 PM (0:15)

Abstract content

An Introduction to Ansys simulation software for Signal Integrity is presented. A PCI Express 8 GT/s Channel example is shown. Analysis and post processing in frequency domain is shown in the SIwave tool. Also, time domain specification in the tool HFSS SI is mentioned.

Summary

Primary author(s) : Mr. FOCHO, Atte Formum (Ansys Germany)

Presenter(s) : Mr. FOCHO, Atte Formum (Ansys Germany)

Session Classification : New Products
