Dear Parents,

we are happy to provide qualified and attentive child care offered by the "Studierendenwerk Hamburg" (Hamburg Student Union) during the information and discussion evening "Scientific Career and Parenthood" on 19 November 2015. All day care centres run by the Hamburg Student Union provide flexible, professional, loving care for around 375 children. The day care centres are geared towards the special needs of university staff and students. During the evening educational specialists will look after your child at the Kinderwelt@DESY kindergarten. Should you be interested in our child care service please fill out the registration form and send it back to us by e-mail, fax or mail no later than **10 November 2015**. Thank you very much.

Mother tongue	_____	_____

Please remember to allow extra time for a 20 minutes' walk from the daycare centre to the conference location. For children under the age of 3 we try to provide childcare directly at the conference venue. Please also allow an extra time of at least 30 minutes to help your child to familiarize easier with the new surroundings.

Please note:

Soft drinks, such as water and unsweetened tea are available for children during the child care. Food is laid on personal responsibility, so that parents give to their children the food they need.
