

## WPC Miniworkshop on Holography

**19 April 2016**

DESY Hamburg, Germany

ZOQ seminar room (bldg. 90)

### Program:

09:30-11:00 h:

#### Holography for strongly correlated systems

Volker Schomerus (DESY)

11:30-12:30 h:

#### Holographic matter at finite chemical potential

Aristos Donos (Durham University)

14:30-16:00 h:

#### Effective field theories in ultra-cold atom systems

Ludwig Mathey (University of Hamburg)

16:30-17:30 h:

#### A holographic model of quantum Hall transitions

Andrei Parnachev (TC Dublin)

Organizers: Gleb Arutyunov, Alexander Lichtenstein,  
Ludwig Mathey, Volker Schomerus
