

Probing nuclear physics with gravitational waves

Tuesday, August 28, 2018 6:05 PM (0:20)

Abstract content

The gravitational waves from a neutron star binary inspiral carry unique information about fundamental physics in extreme conditions. I will discuss the imprints of the properties of neutron star matter on the gravitational waves, what we have learned from the neutron star binary inspiral event GW170817, and outline future prospects and challenges.

Primary author(s) : Dr. HINDERER, Tanja (Radboud University Nijmegen)

Presenter(s) : Dr. HINDERER, Tanja (Radboud University Nijmegen)

Session Classification : Gravitational Waves

Track Classification : GW and followup
